Sunny Garden Kit (well-drained soil)

Photo	Description	Height	Bloom Time	Location in Raingarden
 <p>Butterfly Milkweed</p>	<ul style="list-style-type: none"> • Attracts butterflies because of its color and copious production of nectar • Provides larval food for Queen and Monarch butterflies • Grows best in full sun • Prefers well-drained soil, but, as tough as they are, can tolerate clay soil too 	1-3 feet	Early Summer- Early Fall	Front and Sides of Raingarden
 <p>Bicknell's Sedge</p>	<ul style="list-style-type: none"> • Sometimes referred to as Prairie Sedge • Florets are cross-pollinated by the wind • Tolerant of shade, but prefers full sun • Leaves not retained from year to year • Prefers moist to dry conditions 	1-4 feet	Late Spring	Bottom and Sides of Raingarden
 <p>Slender Penstemon</p>	<ul style="list-style-type: none"> • Also called Slender Beardtongue • Has pale purple tubular flowers • Likes full sun to partial shade • Grows well in dry-mesic soils 	1-2 feet	May-July	Sides of Raingarden
 <p>Culver's Root</p>	<ul style="list-style-type: none"> • Slender spikes of white flowers resemble a candelabra • Elegant appearance when in bloom • Prefers full or partial sun • Grows best in rich loamy soil • Named after pioneer physician who recommended it for various ailments • Many kinds of bees love it! 	5 feet	Early to Mid-Summer (blooms last 1 month)	Back of Raingarden
 <p>Rough Blazingstar</p>	<ul style="list-style-type: none"> • Fluffy, purple disk flowers resemble "blazing stars" • Grows easily in average well-drained soils in full sun. Tolerant of poor soils, drought and summer heat • Good fresh cut flower for arrangements 	2-3 feet	Late Summer-Fall	Sides and Back of Raingarden
 <p>Aromatic Aster</p>	<ul style="list-style-type: none"> • Compound flowers are daisy-like • One of the last wildflowers to bloom prior to heavy frost • Prefers full sun and dry conditions • Tolerates high Ph levels • No noticeable floral scent, but crushed foliage and flowers have balsam aroma 	1-2 feet	Fall (blooms last 1-2 months)	Bottom and Sides of Raingarden

This kit sells for \$50 to \$150, based on the size of your raingarden design.
